OPERATION CLEAR SKIES: SKYWAYS TERMINAL 1 CRISIS

Confidential Team Field Briefing & Relay Operations Manual

---

1. Case Background

An unattended suitcase has been found at a busy airport gate, setting off a security alert. It looks like a distraction, and something valuable may be going missing elsewhere at the airport while everyone is focused on the bag.

A 3-person task force will work together, guiding AI agents to review the evidence, piece together what happened, and find who is responsible.

2. Team Relay Operations

Turn 1: Evidence Extraction

Guide your agent to pick out the important details from the evidence and ignore anything unrelated.

Turn 2: Timeline Reconstruction

Guide your agent to put the facts in order as a clear timeline, without jumping to conclusions.

Turn 3: Final Verdict

Guide your agent to solve the case: who did it, how they did it, why they did it, and what proves it.

3. Team Strategy

Keep your instructions short and clear. Each turn builds on the one before it, so good teamwork and simple prompts will lead your team to success.
